# AcuZone Therapy™

UNLOCK THE BRAIN – BODY CONNECTION

**Just an extra 10 minutes to your client sessions can make a profound impact.**

You'll be surprised at how easy it is to integrate into your existing practice!

A hands-on workshop to learn how to decode and reset the body's master circuits using a simple, powerful system.

## What is AcuZone Therapy™?

AcuZone Therapy™ is a hands-on method inspired by a chiropractic technique and based on the concept that the human body functions like an electrical machine, divided into 6 primary systems. By restoring communication between the brain and the body, we can help the body return to balance.

## What You Will Learn:

1. **The 6-Point Assessment**
   A clear, systematic way to identify where the primary stress is in the body.
2. **Somatic and Emotional Mapping**
   Understand how physical and emotional patterns are connected.
3. **The Correction Protocol**
   Learn Karin's hands-on process to reset the Master circuits.

## The 6 Primary Systems

| Glandular | Eliminative | Nerves | Digestive | Muscular | Circulatory |
|---|---|---|---|---|---|
| Hormones | Detoxification | Communication | Absorption | Structure | Flow |

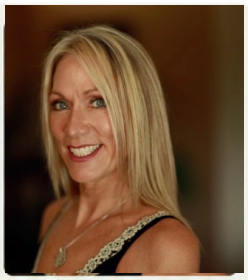

## Tangible Proof!

Your client gets immediate, physical feedback that their nervous system has shifted. Stop guessing and have instant clarity exactly where the primary stress is in the body.

## Who Can Learn?

- ✓ Practitioners of all modalities (chiropractors, massage therapists, acupuncturists, Reiki practitioners, craniosacral therapists, bodyworkers and more)
- ✓ **Lay people and caregivers** who want to support family and friends
- ✓ **No prior experience necessary!**

Use AcuZone Therapy™ in your practice or at home with family and friends using acupressure points and tuning forks.
